¹We qualified as a REIT beginning in the taxable year ending December 31, 2017. Our failure to remain qualified as a REIT would result in higher taxes, may adversely affect our operations, would reduce the amount of income available for distribution and would limit our ability to make distributions to our shareholders.

²We may change our investment objectives, policies and strategy at any time without stockholder consent. Diversification does not eliminate risk and does not assure better performance.

³There is no guarantee of distributions. Distributions may be paid from sources other than cash flow from operations, including offering proceeds, which may reduce an investor’s overall return.

⁴As with any real estate, there are various risks, including but not limited to: unfavorable market conditions and limited liquidity.

⁵Sponsor support is subject to reimbursement under certain circumstances.

⁶Repurchases are limited to 10% per year and 2% per month of the combined NAV of all classes of shares as of the last calendar day of the previous calendar year or month, respectively; the program may be modified, suspended or terminated at any time upon ten-days prior written notice to stockholders.

⁷No public marketing currently exists for our shares, and we are not required to list our shares, sell our portfolio or sell our company by a specified date or at all. Unless and until there is a public market for our shares, you will have difficulty selling your shares. If you are able to sell your shares, you would likely have to sell them at a substantial loss.

RISK FACTORS

1. We have no operating history and very limited assets. This is a "blind pool" offering and we have not identified any specific investments to acquire.
2. After the first quarterly valuation of our assets is undertaken, the purchase and repurchase price for shares of our common stock will be based on our NAV and will not be based on any public trading market. Neither NAV nor the offering price may be an accurate reflection of the fair market value of our assets and liabilities and likely will not represent the amount of net proceeds that would result if we were liquidated or dissolved or the amount you would receive upon the sale of your shares.
3. Our organizational documents do not restrict us from paying distributions from any source and do not restrict the amount of distributions we may pay from any source, including offering proceeds. If we pay distributions from sources other than our cash flows from operations, we will have less funds available for investment, borrowings and sales of assets, the overall return to our stockholders may be reduced and subsequent investors will experience dilution. Our distributions, particularly during the period before we have substantially invested the net proceeds from this offering, may exceed our earnings, which would represent a return of capital for tax purposes.
4. No public market currently exists for our shares, and we have no plans to list our shares on an exchange. Unless and until there is a public market for our shares, you will have difficulty selling your shares. If you are able to sell your shares, you would likely have to sell them at a substantial loss.
5. The amount and timing of distributions we may pay in the future are uncertain. There is no guarantee of any return and you may lose a part or all of your investment in us.
6. We are not required to pursue or effect a liquidity event within a specified time period or at all.
7. We will pay substantial fees to and reimburse expenses of our advisor and its affiliates. These fees increase your risk of loss.
8. All of our executive officers, some of our directors and other key real estate professionals are also officers, directors, managers and key professionals of our advisor, our dealer manager and other entities affiliated with Cantor, which we refer to as the Cantor Companies. As a result, they will face conflicts of interest, including significant conflicts created by our advisor's compensation arrangements with us and other Cantor-advised programs and investors.
9. If we raise substantially less than the maximum offering, we may not be able to invest in a diverse portfolio of income-producing commercial properties and other real estate-related assets.
10. We depend on our advisor to select our investments and conduct our operations. Our advisor is a newly-formed entity with no operating history. Therefore, there is no assurance our advisor will be successful.
11. Disruptions in the financial markets and stagnant economic conditions could adversely affect our ability to implement our business strategy and generate returns to you.
12. Our investments will be subject to the risks typically associated with real estate.
13. We expect to make foreign investments and will be susceptible to changes in currency exchange rates, adverse political or economic developments, lack of uniform accounting standards and changes in foreign laws.
14. The other risk factors set forth in our prospectus and other filings with the securities and exchange commission.
